DETAILED ACTION

Claim Objections

1. Claim 2 is objected to because of the following informalities:

Claim 2, line 1, "a least" should be --at least--.

Appropriate correction is required.

Claim Rejections - 35 USC § 102

2. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

3. Claims 1-5, 7, and 8 are rejected under 35 U.S.C. 102(b) as being anticipated by Shink (5,553,908).

Shink discloses a sun visor (10) that is composed of a metal spring wire (22) and a flexible panel (20). The perimeter of the spring wire (22) maybe greater than the perimeter of the flexible panel (20), before joining the two components, as the panel may be folded before being stretched onto the spring wire (22). The flexible panel (20) may be made of a light-reflecting material. Figure 2 shows a sun visor with a rectangular perimeter. Figure 2B shows a sun visor with an ellipsoid perimeter. The ends of the spring wire are fastened by a bushing (24).

Allowable Subject Matter

4. Claims 6 and 7 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
